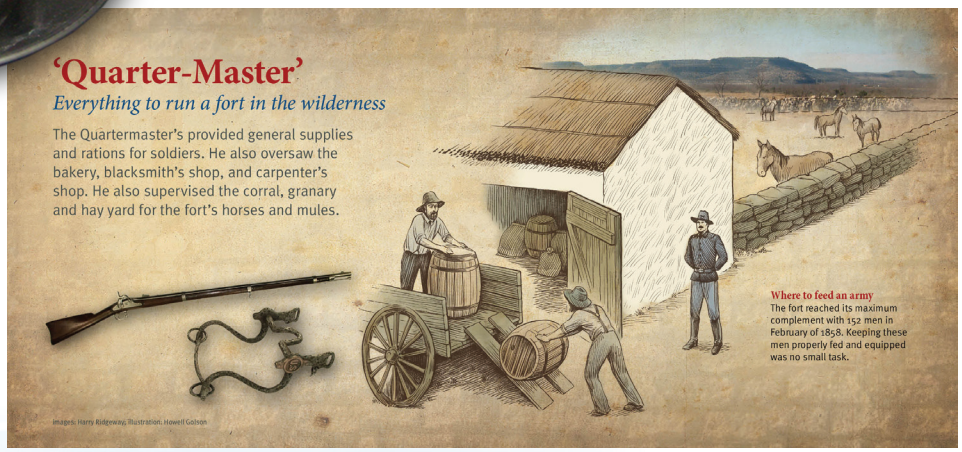
Project Team
Development: Edward Malouf, Carol Lieb
Writing: Hal Simon (THC)
Design: Edward Malouf, Karen Conant
Illustration: Howell Golson


Little remains of the outpost that protected the critical trail connecting San Antonio and El Paso, but the Texas Historical Commission wanted to provide visitors who strolled along the fort's pathways a glimpse into the life of a prairie soldier facing the harsh environment of the Texas Plains. The bring this story to life, we commissioned custom illustrations and obtained period artifacts to develop a 19-panel program that guides visitors throughout the historic site.
